

## **Rule 375-5-6-.30 Alternative Resources for Background Investigations**

In the event the Department is unable to obtain ~~classifiable electronically recorded fingerprints results~~ from an applicant for reasons that are beyond the applicant's control, ~~the Department may conduct a background investigation of such applicant utilizing the CJIS Name Search procedures authorized by the Federal Bureau of Investigations and the Georgia Bureau of Investigations~~ will be conducted.

**Authority: O.C.G.A. § 40-16-5.**

### **SYNOPSIS**

#### **STATEMENT OF PURPOSE**

The purpose of this amendment is to update the alternative background procedure.

#### **DIFFERENCE BETWEEN EXISTING AND PROPOSED RULES**

The revision eliminates the necessity for actual fingerprints by deleting "classifiable electronically recorded" and allows the Department to just receive the background check results. It also removes some language regarding the process of conducting the alternative investigation by deleting "the Department may conduct" and "utilizing the CJIS Name Search procedures."
